ACCOUNT NUMBER DECPRECANCY EXPLANATION

Reference: Madilinn Ainsworth

Case #: 24-50792-hlb

In 2023 E*Trade was acquired by Morgan Stanley Smith Barney, at which time they changed the Brokerage Account numbers from an E*Trade ACCT# 5150-5312 to a Morgan Stanley ACCT# 775-327970. I have included a June 30, 2023 Account Statement, reflects on pages 5-6 that the common stocks were transferred to MSSB A/C with the new account number.

I am including this because you will find that the Account Numbers on the most current Account Statement I included and the Trade Confirmation Reports DO NOT match. The first page of the June 30, 2023 Account Statement does reflect the old E*Trade Account Number.

Important Information if You are a Margin Customer(not available for certain retirement accounts)

If you have margin privileges, you may borrow money from us in

exchange for pledging assets in your accounts as collateral for any outstanding margin loan. The amount you may borrow is based on the value of the eligible securities in your margin accounts. If a security has eligible shares, the number of shares pledged as collateral will be indicated below the position.

Margin Interest Charges

We calculate interest charges on margin loans as follows: (1) multiply the applicable margin interest rate by the daily close of business net settled debit balance, and (2) divide by 360 (days). Margin interest accrues daily throughout the month and is added to your debit balance at month-end. The month-end interest charge is the sum of the daily accrued interest calculations for the month. We add the accrued interest to your debit balance and start a new calculation each time the applicable interest rate changes and at the close of every statement month. For interest rate information, log into your account online and select your account with a Margin agreement to view more information.

Information Regarding Special Memorandum Account

If you have a Margin Account, this is a combined statement of your Margin Account and Special Memorandum Account maintained for you under Section 220.5 of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the Special Memorandum Account as required by Regulation T is available for your inspection at your request.

Important Information About Auction Rate Securities

For certain Auction Rate Securities there is no or limited liquidity. Therefore, the price(s) for these Auction Rate Securities are indicated by N/A (not available). There can be no assurance that a successful auction will occur or that a secondary market exists or will develop for a particular security.

Structured Investments Risks and Considerations

Structured Investments (Structured Products) are complex products and may be subject to special risks. Investors should consider the concentration risk of owning the related security and their total exposure to any underlying asset. Structured Investments, which may appear in various statement product categories and are identified on the Position Description Details line as "Asset Class: Struct Inv," may not perform in a manner consistent with the statement product category where they appear and therefore may not satisfy portfolio asset allocation needs for that category. For information on the risks and conflicts of interest related to Structured Investments generally, log in to Morgan Stanley Online and go to www.morganstanley.com/structuredproductsrisksandconflicts.

Security Measures

This statement features several embedded security elements to safeguard its authenticity. One is a unique blue security rectangle,

printed in heat-sensitive ink on the back of every page. When exposed to warmth, the color will disappear, and then reappear.

SIPC Protection

We are a member of Securities Investor Protection Corporation (SIPC), which protects securities of its customers up to \$500,000 (including \$250,000 for claims for cash). An explanatory brochure is available upon request or at www.sipc.org. Losses due to market fluctuation are not protected by SIPC and assets not held with us may not be covered by SIPC protection. To obtain information about SIPC, including an explanatory SIPC brochure, contact SIPC at 1-202-371-8300 or visit www.sipc.org.

Transaction Dates and Conditions

Upon written request, we will furnish the date and time of a transaction and the name of the other party to a transaction. We and/or our affiliates may accept benefits that constitute payment for order flow. Details regarding these benefits and the source and amount of any other remuneration received or to be received by us in connection with any transaction will be furnished upon written request.

Equity Research Ratings Definitions and Global Investment Manager Analysis Status

Some equity securities may have research ratings from Morgan Stanley & Co. LLC or Morningstar, Inc. Research ratings are the research providers' opinions and not representations or guarantees of performance. For more information about each research provider's rating system, see the Research Ratings on your most recent June or December statement (or your first statement if you have not received a statement for those months), go online or refer to the research provider's research report. Research reports contain more complete information concerning the analyst's views and you should read the entire research report and not infer its contents from the rating alone. If your account contains an advisory component or is an advisory account, a GIMA status will apply.

Credit Ratings from Moody's Investors Service and Standard & Poor's

The credit rating from Moody's Investors Service and Standard & Poor's may be shown for certain securities. All credit ratings represent the opinions of the provider and are not representations or guarantees of performance. Inform us if your investment objectives, as defined in the Expanded Disclosures, change.

HOLDINGS

This section reflects positions purchased/sold on a trade date basis. "Market Value" and "Unrealized Gain/(Loss)" may not reflect the value that could be obtained in the market. Your actual investment return may differ from the unrealized gain/(loss) displayed. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income a) is calculated on a pre-tax basis, b) does not include any reduction for applicable non-US withholding taxes, c) may include return of principal or capital gains which could overstate such estimates, and d) for holdings that have a defined maturity date within the next 12 months, is reflected only through maturity date. Actual Income or yield may be lower or higher than the estimates. Current Yield is an estimate for informational purposes only. It reflects the income generated by an investment, and is calculated by dividing the total estimated annual income by the current market value of the entire position. It does not reflect changes in its price. Structured Investments, identified on the Position Description Details line as "Asset Class: Struct Inv," may appear in various statement product categories. When displayed, the accrued interest, annual income and current yield for those with a contingent income feature (e.g., Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and current yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

For additional information related to Unrealized and Realized Gain/(Loss) and tax lot details, including cost basis, please visit www.etrade.com. The information presented on the statement should not be used for tax purposes.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions. Under the Bank Deposit Program, free credit balances held in an account(s) at Morgan Stanley Smith Barney LLC are automatically deposited into an interest-bearing deposit account(s), at Morgan Stanley Bank, N.A. and/or Morgan Stanley Private Bank, National Association, each a national bank, FDIC member and an affiliate of Morgan Stanley. Under certain circumstances, deposits may be held at other FDIC Insured Program Banks. For more information regarding the Bank Deposit Program and the Program Banks, go to www.etrade.com/bdpdisclosure. Cash and Interest from required Pattern Day Trader minimum equity amounts are retained in Cash Balance Program.

Tips on Protecting Yourself from Fraudulent Account Activity

The protection of client data is of the utmost importance to us. Scams are on the rise, and they have become more sophisticated. Please remember to never share your personal information including account verification codes, account numbers, passwords or social security numbers with anyone you do not personally know.

Please be cautious opening attachments, clicking on links, or allowing external access to your computer. Scammers will be aggressive and create a sense of urgency. Scammers will promise unbelievable returns using crypto currency investing or sweepstakes/lottery. Scammers will use social media apps to build trust and then make sudden requests for money due to a hardship or emergency.

If you have any questions regarding scams or believe that you are a victim of a scam, please contact us or call 888-454-3965 to report online fraud or security concerns.

Morgan Stanley prepares quarterly reports describing its order routing practices for nondirected orders routed to a particular venue for execution. These reports are publicly available at www.etrade.com. Morgan Stanley will furnish a written copy of the quarterly report on request. In addition, Morgan Stanley will provide on request more-detailed information related to the routing of any order in the six months prior to the request, including the identity of the venue to which the customer's orders were routed for execution, whether the orders were directed or nondirected orders, and the time of any transactions that resulted from such orders.

SEA RULE 607 - PAYMENT FOR ORDER FLOW DISCLOSURE

Morgan Stanley takes a number of factors into consideration in determining where to route customers' orders, including the speed of execution, price improvement opportunities (executions at prices superior to the then prevailing inside market), automatic execution guarantees, the availability of efficient and reliable order-handling systems, the level of service provided, the cost of executing orders, and whether it will receive remuneration from particular broker-dealers and market centers for routing customer orders to them for execution. FINRA RULE 4340 - CALLABLE SECURITIES

When a security is subject to a partial redemption by the issuer, the issuer notifies Morgan Stanley, via a central industry depository, of the number of units for the specific security to be redeemed. Upon receipt of the issuer's notification of a mandatory redemption, Morgan Stanley determines the favorability of the redemption based on the current market price versus the call price. When the redemption of the callable security is made on terms that are favorable to the called parties, Morgan Stanley does not include any firm or employee accounts in the pool of securities eligible to be called until all other customer's positions in such securities have been called. When the redemption is made on terms that are unfavorable to the called parties, Morgan Stanley does not exclude firm or employee accounts from the pool of the securities eligible to be called.

Once the favorability of the redemption has been determined, Morgan Stanley uses a random process designated to allocate called securities on a fair and impartial basis. The lottery process is based on a mathematical formula that determines the accounts that will be selected and the number of securities in the account that will be redeemed.

As a result of the call, you may be left with a position either below the minimum denomination of the security or in an amount that is not an authorized denomination of the security. Such a position may have less, limited or no liquidity depending on the type of security, issuer, size of position or other factors.

As required under FINRA 4340 - "Callable Securities," Morgan Stanley is providing our customers with a link to the firm's allocation procedures related to callable securities located on the Morgan Stanley website: www.morganstanley.com/about-us/ir/finra. Additionally, a hard copy of the allocation procedures will be provided to customers upon request.

FINRA RULE 2264 - MARGIN DISCLOSURE

Morgan Stanley Smith Barney LLC ("Morgan Stanley") is furnishing this information to you to provide some basic facts about purchasing securities on margin. Securities purchased on margin are Morgan Stanley's collateral for the loan to you. If the securities in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, Morgan Stanley can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with Morgan Stanley, to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin.

These risks include the following:

- You can lose more funds than you deposit in the margin account.
- Morgan Stanley can force the sale of securities or other assets in your account(s).
- Morgan Stanley can sell your securities or other assets without contacting you.
- If Morgan Stanley takes action to meet a margin call on your behalf, you will not have the ability to choose which securities are liquidated.
- Morgan Stanley can increase your "house" maintenance margin requirements at any time and is not required to provide you advance written notice.
- Morgan Stanley may change margin requirements at any time without prior notice and call for additional collateral, including without limitation on an intraday basis.
- You are not entitled to an extension of time on a margin call.

In the event that securities so held are called by the issuer, the securities to be called will be determined by an impartial and random selection system. If your security is selected, it will be presented for redemption and your account credited with the proceeds. You have the right to withdraw uncalled, fully paid securities at any time prior to a partial call and also to withdraw excess margin securities not subject to restriction.

The responsibility to cancel an existing open order rests with you. Any transaction that results from the execution of any orders that you have not instructed us to cancel, prior to execution, will be recorded in your account. Market orders are subject to immediate execution and are difficult to cancel.

If required payment or delivery of securities is not made by the settlement date, ETS may, at its option and without further notice, charge interest on the amount shown on the face hereof or cancel, sell out, or buy in the subject securities and charge your account for any expenses, losses, or other costs incurred.

Investments in securities are not guaranteed by ETS, are not insured by the FDIC, and will fluctuate with changes in market conditions. When selling a security, you may receive more or less than your original investment.

The principal amount or commission described on the face hereof may include an Additional Fee* for special services rendered. Other charges may include commissions paid to affiliates of ETS, local taxes, transaction fees, and exchange fees, among others. For customers who choose to convert from the currency in which the security or payment thereon is denominated, the amounts provided with respect to principal, interest, dividend and/or yield is subject to fluctuation or applicable foreign currency exchange rates and costs including a markup charged by ETS. Further details are available upon written request. The name of the party with whom this transaction was made and time of execution of the transaction will be furnished upon written request.

Securities purchased by you or held by ETS may be hypothecated and/or commingled with securities carried for other customers.

Call features for bonds may exist and such bonds can be redeemed in whole or in part before maturity that could affect the yield; complete information will be provided upon request. With respect to a zero coupon issue, you will not receive periodic payments, and the securities may be callable at a price below maturity value. Furthermore, a zero coupon issue that is callable and in bearer form may be called without notice by mail to you unless the issue is registered.

For an asset-backed security (e.g., GMO, FNMA, FHLMC, or GMNNA), the actual yield may vary according to the rate at which the underlying assets or receivables are prepaid. Information concerning factors that affect yield, including estimated yield, weighted average life, and prepayment assumptions, are available upon request.

The ratings that appear in the description of some fixed-income securities have been obtained from rating services that we believe to be reliable; however, we cannot guarantee their accuracy. Securities for which a rating is not available will be marked "Not Rated." A withdrawn rating "WR" signifies the removal of a rating on either an obligation or issuer. Confirmations related to fixed income transactions may reflect a mark-up or mark-down; both as a dollar and percentage value. The mark-up or mark-down dollar value is calculated as the execution price less the prevailing market price (PMP) multiplied by the quantity. The mark-up or mark-down percentage value is calculated as the mark-up or mark-down dollar value divided by the PMP. Trades with a mark-up or mark-down value of "NA" indicate a negative mark-up (i.e., the sale of the security was at a price lower than the PMP).

Final prospectus and/or offering documentation is available upon request in connection with your purchase of a security where the issuer is deemed to control, be controlled by, or under common control with ETS (i.e., affiliated securities).

*Additional Fees may include a broker-assist fee, an order handling fee and/or market center charges. ETS will charge a fee if you request to have certificates issued in your name and mailed to you.

Payment for Order Flow Disclosure

The SEC (as well as FINRA) requires that all broker-dealers inform their customers when a new account is opened, and on an annual basis thereafter, of payment for order flow practices (compensation received for placing orders through specialists on national securities exchanges, over-the-counter market makers, alternative trading systems, and ECN's (collectively, "market centers")). Consistent with the overriding principle of best execution, ETS routes orders to various market makers, including its affiliate Morgan Stanley & Co. LLC. ETS receives remuneration (generally in the form of per share cash payments or through profit-sharing arrangements) for routing orders in securities to particular market centers for execution. Such remuneration is considered compensation to ETS, and the source and amount of any compensation received in connection with your transaction will be disclosed to you upon written request. ETS, absent instructions from you to the contrary, takes a number of factors into consideration in determining where to route customers' orders, including the speed of execution, price improvement opportunities (executions at prices superior to the then prevailing inside market), automatic execution guarantees, the availability of efficient and reliable order handling systems, the level of service provided, the cost of executing orders, whether it will receive cash or non-cash payments for routing order flow, and reciprocal business arrangements.

Trades noted as "AVG PRICE SHOWN-DETAILS ON REQ" are executed through an average price account. The price shown may represent an average of multiple executions or may represent a single execution at the price indicated. Details regarding trades done in an average price account are available upon request.

If you have questions regarding the Customer Agreement, your account, or positions and balances please contact us through etrade.com or call 800-387-2331. THE INFORMATION CONTAINED IN YOUR ACCOUNT STATEMENT SHALL BE BINDING UPON YOU IF YOU DO NOT OBJECT, EITHER IN WRITING OR VIA ELECTRONIC MAIL, WITHIN FIVE (5) DAYS AFTER THE ACCOUNT STATEMENT IS FIRST RECEIVED BY YOU.

Securities products and services are offered by ETS, Member SIPC. Your account is carried by ETS, Member SIPC, which maintains your funds and securities deposited with ETS directly by you or your advisor firm. Please review this statement carefully. If you disagree with any transaction, or if there are any errors or omissions, please notify us at 800-387-2331 within five (5) days of your receipt of this statement. Any oral statements that you have made to us should be confirmed in writing.

Applicable Rules and Regulations. All transactions in your account shall be subject to the constitution, rules, regulations, customs, and usages of the exchange or market, and its clearing house, where the transactions are executed by ETS or its agents, including ETS affiliates. Also, where applicable, the transactions shall be subject to the provisions of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the rules and regulations of the Securities and Exchange Commission ("SEC"), the Board of Governors of the Federal Reserve System, and any applicable self-regulatory organization. For information about FINRA's Broker Check Program, including an investor brochure, please contact FINRA at 800-289-9999 or www.finra.org.

Securities Pricing. The amounts printed in the total market value column of the Account Holdings section, or any amounts derived therefrom, are based on US month end prices and are provided by outside quotation services for the securities held by us in your account. Prices of municipal bonds, certain over-the-counter securities, and federal obligations are approximations and are only for guidance purposes. Prices used are based on the last reported transaction known to the quotation services or the yields or values that are calculated on the basis of these prices. Value of brokered CDs reflected on this statement is estimated by a third-party pricing service. Actual value may differ if you elect to sell your CD(s) in the secondary market. Bonds and/or fixed income securities trade differently than equity securities and do not trade on a liquid exchange. Rather, they trade in the OTC (over-the-counter) market and sufficient liquidity may not exist for you to sell your position prior to maturity. The sale of instruments prior to maturity may result in a loss of principal.

Interest/Dividends. We are required by law to report annually to you and to the Internal Revenue Service on Form 1099 any taxable interest, dividends, and capital gains credited to your account, as well as any taxes withheld. The year-to-date figures shown on your statement reflects these amounts classified to the best of our current knowledge based on activity. In certain circumstances, payments may be subject to reclassification, such reclassifications will be reflected to the Internal Revenue Service on your Form 1099. Your statement may not reflect all adjustments required for tax purposes, please refer to your tax documents.

SIPC and other Insurance Coverage. ETS is a member of the Securities Investor Protection Corporation ("SIPC"). SIPC currently protects the assets in each of your securities accounts at ETS up to \$500,000 (including \$250,000 for claims for cash). Visit www.sipc.org or call 202-371-8300 for more information including a brochure on SIPC protection. (Please note that money market mutual fund balances are considered securities rather than cash.) Additional protection for ETS has been secured through an independent insurer, more information about which can be found at <https://us.etrade.com/customer-service/faq>. The market risks associated with investing and any resulting losses are not covered by SIPC or the additional protection.

Payment for Order Flow. The SEC (and FINRA) requires that all broker-dealers inform their customers when a new account is opened, and on an annual basis thereafter, of payment for order flow practices (compensation received for placing orders through specialists on national securities exchanges, over-the-counter market makers, alternative trading systems, and ECNs (collectively, "market centers"). Consistent with the overriding principle of best execution, ETS routes orders to various market centers. ETS receives remuneration (generally in the form of per share cash payments or through profit sharing arrangements) for routing orders in securities to particular market centers for execution. Such remuneration is considered compensation to ETS, and the source and amount of any compensation received in connection with your transaction will be disclosed to you upon written request. ETS posts SEC Rule 806 quarterly reports that include order routing disclosures including the material aspects of the firm's relationships with outside market centers at www.etrade.com. In addition, on request, ETS may provide the identity of the venue to which your orders were routed for execution in the six months prior to the request, whether the orders were directed orders or nondirected orders, and the time of the transactions, if any, that resulted from such orders. ETS regularly assesses the execution quality provided by the market centers to which we route order flow in seeking best execution for our clients. For non-directed client orders, it is our policy to route orders to market centers based on a number of factors that are more fully discussed in the Supplemental Materials of FINRA Rule 5310, including where applicable, but not necessarily limited to, speed of execution, price improvement opportunities, differences in price dis-improvement, likelihood of executions, the marketability of the order, size guarantees, service levels and support, the reliability of order handling systems, customer needs and expectations, transaction costs and whether the firm will receive remuneration for routing order flow to such market centers. Price improvement is available under certain market conditions and for certain order types and we regularly monitor executions to test for such improvement if available.

Margin Accounts. The amount of margin required will be the greater of the (1) amount required by applicable laws, regulations, rules of applicable self-regulatory organizations and clearinghouses, or (2) amount required by ETS in its sole discretion. You will be charged interest on a daily basis on all debit balances that you owe to ETS and on credit extended to you by ETS for the purpose of purchasing, carrying, or trading in securities or otherwise. Interest is calculated on a 360-day basis using settlement date balances. Except as otherwise agreed by you and ETS, the applicable interest rate for margin loans will be determined by adding the prevailing base rate and the applicable sliding scale percentage rate, which is in turn determined by your average daily debit balance. Your stated interest rate is subject to change without notice during each period in accordance with fluctuations in your average daily debit balance and changes to the base rate that are attributable to a change in the Federal Funds rate. ETS will provide you with at least 30 days' prior written notice before changing your stated interest rate for any other reason. Information about ETS's base rate is available upon written request to ETS. For more information on how ETS calculates interest, please see the Customer Agreement. If you have a margin account, this statement is a combined statement for both your margin account and special memorandum account. The permanent record of the separate account as required by Regulation T of the Federal Reserve Board is available for your inspection.

Free Credit Balances. Any cash balances in your securities account, which represent an obligation of ETS, are payable to you upon demand and referred to as free credit balances. Your free credit cash balances: 1) can be maintained in the securities account and will earn interest through the "Cash Balance Program" as more fully described at <https://us.etrade.com/options-uninvested-cash>, and 2) as such are held unsegregated and may be used by ETS in the conduct of its business, subject to the limitations of Rule 15c3-3 under the Securities Exchange Act of 1934. Your free credit cash balances can alternatively be directed to other cash balance options.

Other Cash Balance Option. In addition to the Cash Balance Program you may have the option to have free credit balances in your securities account automatically transferred to a

bank sweep product, which is an account at a bank (or banks, collectively, "Program Banks") whose deposits are insured by the FDIC, but which are not obligations of ETS. Accounts opened prior to May 10, 2018 may also be eligible to have their free credit balances transferred to certain money market mutual funds. For information about the products available for free credit balances go to www.etrade.com/sweepoptions ("Sweep Program"). The products available under the Sweep Program may change at any time. Notification of changes will be provided to the extent required by applicable law. Additionally, you may at any time change your selection among the products available in the Sweep Program. You may elect, subject to any limitation set forth in any Sweep Program agreement or, with respect to an account at a bank, under federal banking laws (which includes, without limitation, program banks' potential requirement of seven days' notice before permitting a withdrawal or transfer of funds from such account) that the balance in the bank deposit account be returned, or shares of the money market mutual fund in which you have a beneficial interest be liquidated and the proceeds returned, as applicable, to the securities account or remitted to you. With respect to your decision to participate in a bank sweep product, please remember you are responsible for monitoring the cash balance of your bank sweep accounts deposited with the Program Banks to determine whether you have total deposit balances held in the same capacity at any Program Bank in excess of the \$250,000 FDIC deposit insurance limit.

Options Trading. If you are approved for options trading, you are responsible for advising ETS of any material changes in your investment objectives or financial situation. Additionally, further information regarding commissions and other charges related to the execution of option transactions has been included in the confirmations of such transactions previously provided to you. Such information will also be made available promptly upon request.

Random Allocation of Options Assignment Notices. Assignment notices for short option contracts are allocated among customer short option positions in accordance with a random allocation method. A detailed description of ETS's random allocation method is available at etrade.com and a hard copy of the allocation procedures is available upon request.

Financial Statement. A financial statement of ETS is available for your inspection at its offices or at etrade.com or will be mailed to you upon your written request.

Valuation of Certain Alternative Investments (including DPP and REIT securities). Account statements may include valuations for alternative investments. The values of such investments are estimated and reflect either the most recent valuation provided to ETS by the issuer of the investment, or a valuation provided by an independent third party, which ETS will obtain as part of its services, on an annual or more frequent basis. ETS does not provide a guarantee of the value or the appropriateness of the appraisal methodology applied by the independent third party in providing a value and ETS assumes no responsibility for verifying the accuracy of any valuation presented. Failure of the issuer to provide a timely valuation is your sole responsibility. The investment may reflect no value if a valuation was unavailable or is inaccurate. Investment in non-publicly traded securities, which includes alternative investments, often involves higher risk and less liquidity than other investments. Because there is generally no secondary market for alternative investments, the values reported to you should not be relied upon as any indication of market value. You may be able to sell your interests in the alternative investments held in your account, if at all, only for amounts that are substantially less than their purchase price or the estimated values on your account statements. If your statement reflects a distribution that included a return of capital on Direct Participation Programs and/or REITs, please note that said distributions are reported and a net investment per share estimated value is also reported. Pricing and distribution information has been provided by the sponsor, issuer or other external party responsible for reporting of the DPP or REIT and the classification of distributions as income or return of capital, in whole or in part, is subject to final accounting by such party(ies) and will be reported to you on a Form 1099 or K-1, as applicable.
